1000 Alternatiba

Get your message to 1000,s of people!!

Initiative Chanvre is participating in the Climate Conference in Paris this December by joining with ALTERNATIBA to create events around the city during the conference to educate and illustrate real alternative solutions and actions that can be employed to address what the governments are trying to legislate for. Drastically reducing our global CO2 emissions!!

The WORLD HEMP QUARTER, 5th-6th December will be a launch pad for the greater aims of **Initiative Chanvre**. There will be a 100-m2 hall for showcasing 50 poster displays, a 100-m2 area for demonstrations and a meeting room for IC fans for roundtable discussions.

This is a unique opportunity to make your voice heard or to tell the world what you and your company or association, are doing about the Climate issues we all face. https://docs.google.com/forms/d/1DGZFDG8YH8PewyCMSIBtIbuYSBMhACsCau7acm2HWEE/viewform?usp=send_form

For the small cost of €100 we will print your poster in A0 format (841mm x 1187mm) and display it at the VMA in Montreuil Paris on the 5th and 6th Dec. We will also put your posters up on the **Initiative Chanvre** website after the event.

The funds we get from this project will be used to support the WORLD HEMP QUARTER and go towards ALTERNATIBA & **Initiative Chanvre**.

All graphics should be prepared for the size we will be printing them (A0) and a space should be left at the bottom of the poster for our **Initiative Chanvre** & WHQ banner (841mm X 90mm). You can email the graphic to initiativechanvre@gmail.com

There will also be the opportunity for your company or association to display brochures or leaflets if you join us during the event.
