HEMP SKIN CARE SERIES

DANISH PRODUCED PRODUCTS
-containing hemp oil "nature's most balanced oil"

www.moellerupshop.com

ABOUT SKIN AND HEMP

Hemp oil has been called "nature's most perfectly balanced oil" as it contains all 21 known amino acids in combination with **Omega 3** (ALA, alpha-linolenic acid) and **Omega 6** (linoleic acid / gamma linoleic acid, GLA) in a 1: 3 ratio.

Amino acids are the body's building blocks that it uses to produce proteins. Proteins are constructed of long chains of amino acids, polypeptide chains, whereas relatively few chains (in skin care typically 3-7) are called peptides.

Omega 3 ensures smooth cell walls, while **Omega 6** provides stability. It is very important that the two act in the right proportions. Too much Omega 6 compared to Omega 3 will result in what can be described as too much structure in terms of flexibility; it's undesirable and can have negative consequences in terms of reduced agility - while keeping the oils in optimal balance is the best of both worlds.

Both Omega 3 and Omega 6 are so-called essential fatty acids. Essential as they are vital to us, and must be added from outside, as we can not produce them ourselves.

In combination with Omega 3 and Omega 6, the amino acids make up key components for the conservation of a healthy and well-functioning skin. In particular, Omega 3 and Omega 6 provide effective anti-oxidant and anti-inflammatory properties, as well as counteract dryness and irritation / itching.

At the same time, hemp seed oil also offers a high level of vitamin E, carotene (precursor to vitamin A), phytosterols, phospholipids and a number of minerals, including calcium, magnesium, sulfur, potassium, phosphorus and small amounts of iron and zinc.

The oil is non-comedogenic, which means, it does not work clogged on the pores and therefore does not promote / cause acne. On the contrary, with anti-inflammatory and very softening properties the oil helps to counteract acute conditions.

The oil does NOT contain the psychoactive substance THC, which we usually associate with cannabis / marijuana.

**MOELLERUP ESTATE HAS THE FOLLOWING
PRODUCTS IN THE ASSORTMENT**

**FACIAL MOISTURISER
ANTI-AGEING**
50 ML

**FACIAL MOISTURISER
SENSITIVE OR YOUNG SKIN**
50 ML

FACIAL CLEANSER**
100 ML

**FACIAL ENZYME
PEELING MASK**
50 ML

INSTANT HAND RESCUE
50 ML

CALMING FOOT RELIEF
50 ML

9-HOUR BALM
10 ML

SKIN CARE BASED ON DANISH HEMP 🇩🇰

At Møllerup Estate we would like to make it easier for you to use the nutritional hemp, both internal and external. We have launched an exclusive skin care series, consisting of a variety of creams and oils based on hemp - so that the unique fatty acid composition is fully utilized for a healthy inner and beautiful exterior.

- ✳️ Hemp has a high content of amino acids, essential fatty acids and protective antioxidants, which are extremely important components to maintain a healthy skin
- ✳️ Omega 6 linoleic acid (GLA) from the hemp oil binds moisture by covering the outer layer of the skin, and effectively acts to treat dehydrated and dry skin
- ✳️ The hemp oil's fat components make it possible to penetrate intact skin, thus giving direct nutrition to the skin cells
- ✳️ Hemp oil is referred to as a "dry" oil and is therefore quickly absorbed in the skin without blocking the pores while effectively combating blackheads and reducing pore size
- ✳️ Omega 3 alpha linolenic acid (ALA) from hemp oil contributes with anti-inflammatory properties that effectively treat acne and psoriasis
- ✳️ Hemp oil is rich in protective vitamin E antioxidants that help reduce wrinkles, and contributing to an anti-aging effect on the skin.

The entire skin care series is ideal for all skin types and all products are free of parabens

HUDPLEJE MED HAMP FRA MØLLERUP GODS

DANSK NATURLIGT INNOVATIVT

Hampeoliens fedtkomponenter gør det muligt, at trænge gennem huden og dermed give direkte næring til hudcellerne.

Alle produkterne kan bruges af både mænd og kvinder.

Fedtsyren GLA fra hampeolien hjælper med at regenerere huden og opbygge dens naturlige immunforsvar.

Hampeolien tilstopper ikke porerne i modsætning til rigtig mange andre olier.

Under udviklingen har fokus været på naturlige ingredienser.

På grund af hampeoliens anti inflammatoriske egenskaber er den specielt godt til følsom og tør hud.

"Den nye hudplejeserie er en rigtig god nyhed til folk, der lider af forskellige former for eksem og kløe," fortæller Anne Sophie Gamborg.

Produkterne forhandles på www.moellerup.dk
