

# HEMP ECO SYSTEMS

The new world of building and insulating with hemp

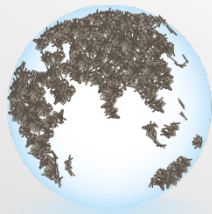

- 1 How a waste material was turned into a useful and ecological product
- 2 How the market developed.
- 3 From 2005 a new market era and subsequent development of products and application techniques
- 4 Future enemies and friends watching the coming of a revolutionary product
- 5 How we market
- 6 What this means to growers and processors of hemp

HEMP ECO SYSTEMS

# THE 3 PRINCIPLES

- 1- NEVER TRY TO BLOCK NATURE
- 2- THE HEALTH AND WELL-BEING OF MAN IS PARAMOUNT
- 3- CONSTRUCTION AND INSULATION WITH NATURAL MATERIALS IS TODAY NO OBSTACLE
